SUMMARY

A passionate and relaxed full-stack engineer with a versatile background and love of learning. I look forward to solving challenging problems and building meaningful applications with curiosity and grit.

PROJECTS

Don't Eat That:

- Team project of four members within a deadline of five weeks created a diet-friendly recipes website
- Implemented the majority of the backend, frontend and API integration, and overall styling
- CSS3, JavaScript, React, Redux, Node, Express, Knex, PostgreSQL

Towelify:

- Winter hackathon project of four members within a deadline of two days created a npm package of easy-to-use, modular React components used to quickly build sites
- Implemented the following components: accordions, alerts, buttons, cards, progress bars, spinners

Lambda Notes:

- Individual project with implementation of the front and backend and styled according to designer mockup
- CSS3, JavaScript, React, Node, Express, Knex, PostgreSQL

SKILLS

- **Languages:** JavaScript, HTML/CSS, Node, Python, C
- **Frameworks:** React.js, Redux, Express.js, Vue.js, GraphQL
- **Databases:** SQLite3, PostgreSQL, MongoDB
- **Other:** Agile Software Development, Data Structures and Algorithm, Git Workflow, Pair Programming

EXPERIENCE

Apollo DAE Inc.

Aug 2018 – Oct 2018

Front End Web Developer Intern

- Self-taught foundational web technologies such as HTML5, CSS3, JavaScript, and Vue.js through projects
- Coordinated with developers to debug programming projects

King Soopers Pharmacy

Sept 2017 – July 2018

Pharmacy Technician

- Collaborated with Pharmacists and other technicians to provide hundreds of prescriptions to customers daily
- Communicated with healthcare providers, insurance companies, and patients to resolve prescription issues

EDUCATION

Full Stack Web Development, Computer Science & Software Engineering. [Lambda School](#) (Pleasanton, CA)

Bachelor of the Arts (Biochemistry). University of Colorado at Boulder (Boulder, CO)
